SIEVERT
(A Bureau Veritas Company)

Move Forward with Confidence
**Bureau Veritas** is a world leader in inspection, certification and laboratory testing. Created in 1828 the group has around 62,000 employees in 1330 offices and laboratories in 140 countries. Bureau Veritas helps its clients to improve their performances by offering innovative services and solutions in order to ensure that their assets, products, infrastructures and processes meets standards and regulations in terms of quality, health and safety, environmental protection and social responsibility.

Bureau Veritas in India started operations in 1973 and has about 4800 employees with 44 offices and laboratories across the country.

**Sievert**, a leading provider of Non Destructive Testing (NDT) Services was formed in Mumbai, in 1986 by a team of technocrats. Sievert provides cutting edge NDT services to the Oil & Gas, Power & Utilities, Industrial Services, Marine & Offshore and Nuclear Industries. Sievert have over 1750 qualified and trained, professionals and 750 pieces of state-of-the-art NDT equipment.

In July 2013 Sievert was acquired by Bureau Veritas making it one of the world’s leaders in non-destructive testing. The synergy between Bureau Veritas and Sievert places at your disposal a wealth of technical expertise that could bring you great benefits.

---

**The Sievert Advantage**

In a business where new asset creation and existing asset maintenance is a high stakes game, asset owners seek a reliable company that has a comprehensive range of services with a system that consistently delivers on time.

Choosing a company with the right combination of highly skilled workforce and the best technology in the world, is the key to deliver safe, environment-friendly services.

As a Bureau Veritas company Sievert can provide end-to-end inspection services, integrating all testing, inspection and certification service requirements. You can align your NDT inspection with the other BV services of Inspection, Asset Integrity Management (AIM) studies, Design Reviews, HAZOP studies, Safety Services, Construction Services, Management System Certification and Environmental Services.

---

**Strengths of Sievert**

- A global Leader in Non Destructive Testing & Inspection
- Over 750 pieces of state-of-the-art NDT Equipment and 1750 skilled NDT professionals
- Comprehensive NDT Inspection services
- A proven track record in NDT services for Onshore and Offshore applications
- Asset Integrity Management competencies
- Global Presence
- Approved by major Clients & EPC Biggies
- Rich experience in all major sectors for both CAPEX and OPEX Projects.
- IMS Certified Company (ISO 9001, ISO 14001 & OHSAS 18001)
- Commitment and Excellence

Managing international projects requires a global set-up, qualified professional, the latest technology and software backed by committed and experienced personnel. Credentials
With over 400+ projects and 30,000 km of cross country pipeline inspection, we have impeccable credentials and a strong track record in executing large-scale NDT projects.

Strict adherence to Industrial Health and Safety Regulations, cultural adaptability and an aggressive growth strategy have been the key drivers in the expansion of our operations in India, Oman, Qatar, UAE, Saudi Arabia, Iraq and Singapore. We have also executed projects in Yemen, Sudan, Bangladesh, Myanmar, Kuwait, Egypt, Nigeria and South Africa. Contracts in many other geographies are expected soon.

Advanced NDT Techniques
- Automated UT for Onshore & Sub Sea Pipelines (AUT)
- Phased Array & TOFD for Weld Inspection & HIC Survey
- Corrosion mapping using Phased Array UT (C Scan, B Scan)
- Digital Radiography/Computed Radiography DR/CR
- Tube Inspection by using ECT/IRIS/RFET/MFL/NFT/Acoustic Eye
- Tank Floor Inspection using MFL
- Laser Optics Profile Measurement by Laser Technology

Conventional NDT Techniques
- Long Range Ultrasonic Testing (LRUT)
- Acoustic Emission Testing (AET)
- Low Frequency Eddy Current Testing (LFET)
- Remote Video Inspection (RVI)
- Alternating Current Field Measurement (ACFM)
- Infrared Thermography
- Pulsed Eddy Current (PEC)
- Corrosion Under Insulation (CUI)
- ECT weld surface inspection

Complementary Services
- Digitization of Radiographs
- Post Weld Heat Treatment
- Training & Certification for all NDT Methods & Radiation Safety
- Radiation Safety Management & Consultant
- Rope Access Services
